POSTDOCTORAL POSITION ANNOUNCEMENT

A **postdoctoral position** is available in the area of large random matrix theory.

Possible research fields include the statistical estimation problems in the light of large random matrix theory, or the spectral behavior of large non hermitian matrices.

The appointment will be jointly hosted by **Telecom ParisTech** (former ENST) and **Supélec**, **two leading French engineering schools** located in Paris.

The candidate is expected to have a PhD in probability, in statistics or in electrical engineering with a solid background in the former two fields.

For both positions, the initial appointment is for one year, and may be extended depending on performance and availability of funding. A competitive remuneration will be offered.

Interested applicants **should email a short statement of research interests** and a **CV with a list of publications** to

Walid Hachem : walid.hachem@telecom-paristech.fr

and to **Romain Couillet** : romain.couillet@supelec.fr.

The position will remain open until filled, but interested applicants are encouraged to apply as soon as possible.
